Node red

The screenshot shows the IBM Cloud Dashboard. The top navigation bar includes the IBM logo, a search bar, and links to Catalog, Manage, and the user's account (Arvin Raj P's Account). The main content area is titled "Dashboard" and features a "For you" section with several tiles: "Build", "Explore IBM Cloud Shell", "Create and deploy an application", "Visit the IBM Cloud catalog", "Set up your IBM Cloud account", and "Build a Watson". Each tile has a "Getting started" button and a time estimate. Below the "For you" section, there are links for "User access", "News", and "Planned maintenance".

The screenshot shows the IBM Cloud Resource list page. The top navigation bar is the same as the dashboard. The main content area is titled "Resource list" and features a "Create resource" button. Below the title, there is a table with columns: Name, Group, Location, Product, Status, and Tags. The table contains one resource: "Node RED ZHCY 2022-10-30" under the "Compute" group, located in "London", with the product "Node.js" and status "Started". The table also includes filter options for each column.

| Name | Group | Location | Product | Status | Tags |
|--------------------------|----------------------------------|----------|---------|---------|------|
| Node RED ZHCY 2022-10-30 | arvintest / Weather monitoring 1 | London | Node.js | Started | - |

IBM Cloud console showing the details of a Node-RED application named "Node RED ZHCMY 2022-10-30". The application is running and has 1 instance. The runtime cost is 256 MB memory per instance. The application is using 256 MB of memory allocation. The runtime cost is 1.75 GB still available. The application is using 256 MB of memory allocation.
